APPROPRIATIONS.

Four districts expended more than the amount fixed upon as sufficient by the Joint Board, and the Board, at a meeting held July 6, 1907.

Voted—"That expenses in excess of the appropriations be paid to the districts as follows: No. 1, \$56.87; No. 4, \$1.15; No. 8, \$13.75 and No. 9 \$1.50.

RECOMMENDATIONS.

The Joint Board of School Visitors and Selectmen, at a meeting held Aug. 3, 1907,

Voted—"To recommend an appropriation of \$4610.00 for the support of schools in town the current year to be divided as follows: To District No. 1, \$1450.00 for the support of the school and \$10.00 for library and apparatus, and to each of the other nine districts, \$345.00 for the support of schools and \$5.00 for library and apparatus.

It was also voted that the schools be kept for 180 session days each year.

IN CONCLUSION.

The appropriation recommended for schools for the current year is \$870.00 more than was recommended for the year just closed.

It is believed that this increase will enable the several districts to secure better teachers.

This increase is rendered possible on account of the law passed by the last legislature giving state aid under the average attendance grant to towns having less than \$1,000,000 grand list.

It is very important that the district committees enumerate every child between the ages of 4 and 16 and that every reasonable effort be made to secure regular attendance, for thereby the scholars will make more

satisfactory progress and also a larger amount will be received from the state. The average attendance in several of the schools was very low owing in part to an epidemic of mumps, but also in part to dissatisfaction with the schools and a lack of effort on the part of parents to get their children to school in bad weather.

We believe parents will never regret the time and trouble necessary to give their children every reasonable opportunity to secure a good education. We notice with regret the tendency to keep children out of school as soon as they are fourteen years old. Because the law permits parents to do this is not a good reason for doing it.

There are a number of boys and girls in town over fourteen years of age who ought to be in school and it will be an irreparable loss to them if they do not attend.

With the present conditions in our state there is no good reason why every child in the state should not receive a good common school education and it is the duty of every good citizen to see that they do.

This report is respectfully submitted,

In behalf of the Board,

ANDREW KINGSBURY,

Secretary.
